

KOMONO

Junior Developer / Data Analyst

For our headquarters in Zwijndrecht, Belgium, we are looking for a highly motivated developer who will play a key role in the global expansion of KOMONO.

Key responsibilities:

- You will be a key part of the Komono Odoo implementation team where you will check, test and advise on the custom developments written by our external implementation partner.
- You will help to build new tools to optimize Komono's processes and procedures.
- You will help the marketing and commercial teams to analyze data in an efficient way.
- As you understand the data you can create forecasts and explain them to the team.

Profile & skills:

- You have a bachelor degree in IT, a master degree is a plus.
- You have knowledge of Python.
- You know your way around IT hard- and software and you are advanced in Excel.
- Full English proficiency is an absolute must, knowledge of Dutch is a plus
- Proactive personality, all-rounder, self-starter, punctual, flexible, ambitious.
- A real team player who likes to connect with people of all kinds of different backgrounds.
- Excellent planning & organization skills, creative problem-solving skills.

What we offer:

- Competitive salary.
- Working for a fast growing, international company.
- Represent a Belgian brand, based in Antwerp.
- Working in a creative and stimulating environment with career development opportunities.
- Be part of a young and dynamic team.
- Flexible working hours.
